Subject: ban antibiotics in animal feed
Auto forwarded by a Rule

Dear Commissioner Henney,

I am writing as a concerned citizen who would like to see antibiotics banned from animal feed. It is time we stop thinking about immediate benefits (increase in profits from the sale of meat) and more long-term benefits (what the consequences will be on humans). My mom is a nurse and has already seen a scary rise in antibiotic-resistant bacteria in her patients. Thank you very much for your time.

Sincerely,
Rhonda Dreux
Bloomington, MN
